About

Based in London, I am a Multidisciplinary Artist specialising in illustration, graphic design and editing.

I am a Freelance Artist & Illustrator and have worked on a number of exciting projects with both freelance and corporate clients.

My mission is to create artworks that highlight issues around mental health, encourage self love and embrace diversity. I enjoy finding a solution to any challenge.

72 Birds for Grenfell 2019

About the Project

A collaboration between *Grenfell United*, local musician OG Omar and myself. The terrible incident at Grenfell Tower affected us all back in 2017, and we wanted to create a design in remembrance of the victims. Omar came to me with a vision to create something with 72 doves and commissioned me to bring his idea to life.

I was strongly inspired by MC Escher and used the optical illusion of birds intertwining and shaping in to one another to create the final design. This really portrays the togetherness of the community and each bird represents one of those lost in the fire, including their initials inside of each bird.

72 Birds for Grenfell Project, 2019
